

Muhammed Farhan Sadique Mahi

CONTACT	Phone: +8801881960259 Address: Banasree, Rampura, Dhaka Email: sadiquefarhan038@gmail.com
CAREER OBJECTIVE	Motivated Computer Science student with strong skills in software development, programming, and problem-solving. Skilled in both academic and practical ICT applications, with experience in AI-powered systems, mobile app development, and database handling. Fluent in utilizing premium AI assistants (Cursor, Claude Code) while rigorously retaining full ownership of code security, correctness, and architecture.
EXPERIENCE	IRD Foundation Junior Flutter Developer December 2025 – Present Core Developer for "One Ummah" App: Independently translated Figma designs into a fully functional Flutter application (live on Google Play Store & App Store). Feature Development: Developed core functionalities including a dynamic Qibla Compass and a direct YouTube live-streaming module for Makkah and Madinah feeds. AI Output Verification: Extensively utilize premium AI coding assistants (Claude, Cursor, Codex) to increase productivity, meticulously reviewing generated code to ensure alignment with Feature-first Clean Architecture. Maintenance: Continuously resolve bugs and roll out new feature updates to improve user experience. IRD Foundation Intern Flutter Developer September 2025 – December 2025 - Collaborated effectively with senior engineers to decompose UI requirements into modular, reusable components. - Gained hands-on experience in the software development lifecycle (SDLC) and version control using Git/GitHub.
CORE COMPETENCIES & TECHNICAL SKILL	Language: Dart, Java (basic), Kotlin (basic), C, Python Design Pattern: Feature-first Clean Architecture Frameworks & Libraries: Flutter, Material UI Widgets Database: SQL. Tools: Android Studio, VS Code, Git & GitHub AI Coding Tools: Cursor, Claude Code, Codex, Antigravity.
PROJECTS	AI-Powered Classification System – Implemented an AI-based system using TensorFlow Lite for automated fruit classification, handling real-time image inputs and responsive result display. Simple Utility Applications – Built small-scale software tools including a calculator and a secure login/registration system.
RESEARCH & PUBLICATIONS	DeepMedScan: A CNN-driven brain tumour detection system with web-based clinical decision support. Published in Int. Journal of Artificial Intelligence in Healthcare, Vol. 1, No. 2, 2026. (Co-author). DragonFruitQualityNet: A Lightweight Convolutional Neural Network for Mobile Devices. Preprint, 2026.

EDUCATION

BSc in Computer Science & Engineering (CSE) | 2021–2025

Manarat International University, Dhaka

CGPA: 3.37 out of 4.00

Higher Secondary School Certificate (HSC) | 2018–2020

Ideal College, Dhaka.

GPA: 4.58 out of 5.00

Secondary School Certificate (SSC) | 2017–2018

Cambrian School & College, Dhaka.

GPA: 4.44 out of 5.00

TRAINING

Flutter App Development Course – Ostad (2025)

CONTEST

Participate in the AUST Rover Challenge

Participate in MIU CSE Programming Contest

EXTRA-CURRICULAR ACTIVITIES

President at MIU CSE Club - 2024

Campus Ambassador, Roboment BD - 2023
